## Great Barford C of E Primary Academy

Hi Everyone,

I hope you are all well and things are settling in to a new routine for you all at home.

I just wanted to share with you some E-safety advice and activities that you will find useful for home learning. I have attached it to this email but it can also be found on our school website under the School Closure Resources tab.

Yesterday morning we added a video resource from the fire officers of White Watch at Kempston Fire Station. It is in the 'other fun activities folder' on the website. It's definitely worth watching, if only to wonder where they got the horse from. The children will really enjoy it and it's very informative.

Thank you to those of you who have been sending in the rainbow pictures. They're great and it's lovely to see that the children are so busy and creative.

Take care and I'll be in touch again soon.

Kind regards,  
Sarah Evans
